## What I am looking for...

The thing I enjoy the most about application development is bringing an idea to life. There is nothing quite as satisfying as coding a digital solution into a pixel-perfect product and working through the problems that arise throughout that process.

## Qualifications

- Javascript (ES6, Coffeescript, jQuery)
- Node and Yarn, React and Redux, Webpack
- HTML5, [CSS3 \(Sass\)](#)
- [Git](#)
- Ruby and Rails
- Sketch, Invision, Photoshop, Illustrator
- Ubuntu servers, Nginx, Digital Ocean, Firebase, Heroku

## Experience

### **Parallel Digital Studio, Hamilton** - *Senior UX Developer*

*Formerly **factor[e] design initiative***

May 2009 - Present

Work closely with clients, designers and developers to build the best possible solution to meet the needs of the application. Every project is custom and designed to achieve the goals of the client.

### **Social Media Group, Hamilton** - *Social Media Analyst*

May 2008 - May 2009

In house web project development, programming and design.

## Education

### **George Brown College** - *Design Management*

September 2007 - April 2008

### **University of Guelph** - *Bachelor of Arts with Honours - Fine Art*

September 2000 - April 2005

## Interests

In the last year I was an organizer for the Embrace UX conference ([embraceux.com](http://embraceux.com)) in Hamilton, I've mentored for Ladies Learning Code in Hamilton and I have volunteered for local political issues like public transit and various elections.

Currently most of my spare time is been spent with my family. I also enjoy painting ([society6.com/eimaj](http://society6.com/eimaj)), design ([eimaj.net/pixel.html](http://eimaj.net/pixel.html)), strumming guitars, gardening and sailing when I can find the time.
